

Relieve Pain & Restore Function

Scenar Therapy is a new, very different type of electro-energetic therapeutic medical modality.

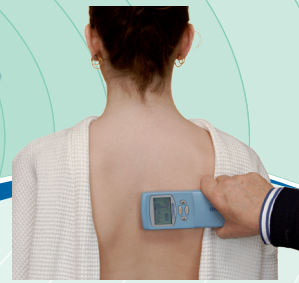

Scenar Therapy interactively locates, measures and treats problem areas, using reflex-bio-feedback, via the skin to quickly relieve pain & rejuvenate function.

Scenar Therapy helps the body heal itself by finding, measuring and treating 'key-points' anywhere on the body. Scenar treatments are non-invasive, non-toxic, highly focussed and individualised and patients usually get results from their first treatment. see www.scenarthérapies.com
